Re: Endorsement of Astec Safety Inc.'s Online Ground Disturbance for Supervisors Training Program

Dear Chris

It gives me a great deal of personal pleasure to advise you that on 17 June 2015, in response to a recommendation from Dwayne Mayr, Co-Chair of the Alberta Common Ground Alliance's Training Standards Committee, full endorsement of Astec Safety Inc.'s online Ground Disturbance for Supervisors training program as meeting the ABCGA Standard 201, Ground Disturbance - Supervisor was granted by Action of the Board of the ABCGA.

Your program is the first online program to achieve full endorsement from the ABCGA. It has been an arduous and at time frustrating process for you that began on 14 April 2014. The assessment and endorsement process is rigorous and the program review panel and I appreciate the patience, dedication and willingness of your organization in working with us to achieve this result.

The ABCGA web site will be updated to promote your success.

Congratulations!
